Supervisor's approve Crestline Storm Drain Improvements

San Bernardino-Supervisor Paul Biane and the County of San Bernardino Board of Supervisors approved plans for storm drain improvements in the Dart Canyon area of Crestline. The action begins a process, which will lead to the construction of a drainage pipe and catch basin that will divert storm water flows away from the traveled roadway.

"These drainage improvements increase the safety of the motoring public during bad weather and will decrease road closures," Supervisor Biane said as the project was approved.

This storm drain enhancement near Edelweiss Drive in Dart Canyon is among several high priority projects in Crestline that were identified during last season's very heavy rains. "The Dart Canyon drainage improvement project, like the work we are doing on the San Moritz Lodge and the Senior Center at Lake Gregory will prevent future damage and preserve valuable facilities," Biane added.

It is estimated the improvements approved by the Board of Supervisors will cost \$40,000, which will be financed by gas tax funds included in the County's transportation budget. Needed projects in the Crestline/Lake Gregory community

consistently receive support from the Board of Supervisors, thanks to Supervisor Paul Biane's leadership.

Since his election in 2002, Supervisor Paul Biane has served the communities of Cedarpines Park, Crestline, San Antonio Heights, Mount Baldy, Lytle Creek and Devore in addition to the cities of Upland, Fontana and Rancho Cucamonga.
